

CLAIMS: I claim:

1. A hand tool that presses brass bushings into door hinges of some Chevrolet/GMC trucks, comprising a common C-shaped vise grip type clamp that has a modified foot.
 - (a.) The said foot that has been drilled-out.
 - (b.) The said foot that has a washer welded on.
 - (c.) The rivet that sets the said foot is replaced with a bolt.
2. The modified foot of claim 1 wherein the drilled-out area of the foot accommodates brass bushings used in the installation of door hinges.
